Kopalnica kot osebni prostor

Kopalnica je naše svetišče, v katerem se z jutranjim obredom pripravimo na nov dan, na nove izzive ter odmaknemo od zunanjega sveta, obnovimo energijo in zmanjšamo stres zvečer pred spanjem. Odraža našo osebnost, kulturo bivanja, obenem pa združuje estetiko in funkcionalnost.

Bathroom as a personal space

Bathroom is our sanctuary where we perform our morning ceremony to prepare for a new day, for new challenges, and a place where we move away from the outside world, renew our energy and reduce stress in the evening before going to bed. It reflects our personality, our culture of living, and at the same time combines aesthetics and functionality.

Kupaonica kao osobni prostor

Kupaonica je naše svetište, gdje se jutarnjim ritualima pripremamo za novi dan, za nove izazove, mjesto u kojem se izdvojimo od vanjskog svijeta, obnovimo energiju i smanjimo stres navečer pred spavanje. Odražava našu osobnost, kulturu življenja, istovremeno kombinirajući estetiku i funkcionalnost.

Kupatilo kao lični prostor

Kupatilo je naše svetilište, gde se jutarnjim ritualima pripremamo za novi dan, za nove izazove, mesto u kojem se odvojimo od spoljnog sveta, obnovimo energiju i smanjimo stres uveče pre spavanja. Odražava našu ličnost, kulturu života, dok u isto vreme kombinuje estetiku i funkcionalnost.

Uporabnost tuš kadi

Če nam hiter način življenja ne dovoljuje, da bi se ob večerih namakali v kopeli, je idealna in najbolj praktična rešitev tuš kad s steklom oz.kabino. Pomembno je, da se med sproščujočim dnevnim ritualom prhanja počutimo varne, zato izberemo tuš kad, ki nam najbolj ustreza ter nam ob pomanjkanju časa olajša čiščenje in vzdrževanje.

Usefulness of shower trays

If the fast pace of life does not allow us to soak in a bath in the evenings, the ideal and most practical solution is a Kolpasan shower tray with enclosure. It is important to feel safe during relaxing daily showering rituals, therefore we choose the shower tray that works best for us and makes cleaning and maintenance easy for us when we are short of time.

Upotrebljivost tuš kada

Ako nam ubrzani način života ne dopušta opuštanje u toploj kupki navečer, idealno i najpraktičnije rješenje je tuš kada s kabinom Kolpa san. Važno je da se tijekom opuštajućeg dnevnog rituala tuširanja osjećamo sigurno i zato biramo tuš kadu koja nam najbolje odgovara te nam u nedostatku vremena olakšava čišćenje i održavanje.

Dinamika tuš kabine

Za tuš kabino se odločamo zaradi hitrega tempa življenja, pomanjkanja prostora, manjše porabe vode in manjšega odtisa na okolje. Tuš kabine Kolpasan nam pomagajo kopalnico prostorsko čimbolje izkoristiti, optično povečati, pa tudi vsakodnevno lažje čistiti.
Z izbiro pravega modela in stekla vizualno razpre še tako majhen prostor,
da se ne počutimo utesnjeno, ampak varno in sproščeno.

Dynamics of shower enclosure

We opt for a shower enclosure due to the fast pace of life, lack of space,
lower water consumption and lower footprint on the environment. Kolpasan shower enclosures help us make the most of the bathroom, optically enlarge it, and facilitate daily cleaning. By choosing the right model and glass, even the tiniest of spaces
will be visually enlarged so we won't feel cramped, but safe and relaxed.

Dinamika tuš kabine

Za tuš kabinu se odlučujemo zbog brzog tempa života, manjka prostora, manje potrošnje vode i manjeg utjecaja na okoliš. Tuš kabine Kolpasan pomažu nam da što bolje iskoristimo svoju kupaonicu, optički je povećamo i olakšamo svakodnevno čišćenje.
Odabir pravog modela i stakla vizualno proširuje čak i mali prostor,
kako se ne bi osjećali skučeno, već sigurno i opušteno.
